DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 21, 2004 has been entered.

Claims 1-20, 22-27 and 29-55 are pending. Applicant is reminded that although claims 10-19 were omitted from applicant's listing of the pending claims, the status of these claims is more accurately "withdrawn" from consideration.

Claim Rejections - 35 USC § 102 and 103

The rejection of claims 20, 22, 26 and 27 under 35 U.S.C. 102(b) based on Cheu et al. (U.S. Pat. 5,670,272) has been withdrawn.

The rejection of claims 26 and 27 under 35 U.S.C. 102(b) based on Greatbatch et al. (U.S. Pat. 3,969,142) has been withdrawn.

The rejection of claim 23 under 35 U.S.C. 103(a) based on Cheu et al. and Goebel et al. (U.S. Pat. 4,565,753) has been withdrawn.

The rejection of claims 24 and 29 under 35 U.S.C. 103(a) based on Cheu et al. and Baker (U.S. Pat. 3,844,841) has been withdrawn.

Art Unit: 1745

The rejection of claims 25 and 30 under 35 U.S.C. 103(a) based on Cheu et al. and Bates (U.S. Pat. 5,612,152) has been withdrawn.

The rejection of claim 29 under 35 U.S.C. 103(a) based on Greatbatch et al. and Stockel. (U.S. Pat. 4,309,494) has been withdrawn.

Allowable Subject Matter

Claims 1-20, 22-27 and 29-55 are allowed.

Claims 1-9 are allowed for the reasons already of record, specifically, the prior art of record and to the examiner's knowledge do not teach or render obvious at least to the skilled artisan the instant invention regarding a cathode current collector comprising a plurality of conducting lines that contact the cathode surface and having spacings therebetween, with an electrolyte at least partially extending through the spacings to contact the cathode.

Claims 20 and 22-25 are allowed in view of applicant's amendment further defining that the substrate comprises a dielectric material with a cathode layer having a surface adhering to the substrate. To the extent that the substrate [70] in Cheu et al. may be applicable towards this feature and although the record has shown that dielectric substrates are known such as the mica substrate [48] taught by Baker, Cheu et al. either singly or in combination with Baker is precluded from teaching the substrate to be a dielectric material as Cheu et al. specifically disclose the substrate to function as a current collector which is requisitely conductive and not dielectrically insulative. (see Cheu et al., col. 3 line 65-67)

Claims 26, 27, 29 and 30 are allowed in view of applicant's incorporation of the limitations in dependent claim 28 (now canceled), which was previously indicated as allowable

Art Unit: 1745

upon such amendment. As stated in the prior Office action, these claims are allowable consistent with the reasons set forth for claims 1-9.

New claims 31-55 are allowed for similar reasons set forth for claims 1-9 in the prior Office action, in that these claims recite a plurality of spacings through which the electrolyte extends therethrough to contact the cathode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

This application is in condition for allowance except for the following formal matters: Claims 10-19 require formal cancellation or other appropriate amendment pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86) for rejoinder of the process-of-making claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
